Review of Operations

The company has produced 6,51,278 MT. of cement during the current financial year compared to the previous year production of 4,97,723 MT. of cement registering an increase of 31 %. The cement sold during the year under review stands at 6,38,449 MT. compared to 4,94,362 MT. during the previous financial year showing an increase of 29%.

The gross sales in terms of value during the year under review were at ₹ 22379.87 Lakhs as against ₹ 15147.05 Lakhs during the previous financial year translating into an increase of 48 %. Similarly the Profit Before Tax for the current financial year amounts to ₹ 129.49 Lakhs against ₹ 2079.31 Lakhs during the previous financial year. The profit after tax for the year under review stands at ₹ 57.61 Lakhs compared to ₹ 1168.93 Lakhs during the previous financial year.

As can be observed, there is a significant improvement both in the physical terms and financial terms during the year under review compared to the previous year. The main reasons for the steep fall in profit before tax during the year 2010-11 are as follows:

- The interest cost during the year has gone up to ₹ 2590.14 Lakhs compared to previous year amount of ₹ 533.75 Lakhs (an increase by ₹ 2056.39 Lakhs). This increase is basically on account of the interest on the project cost which is fully to be charged to Profit & Loss A/c during this year which was not there during the previous financial year.
- The higher depreciation during the year of ₹ 1274.78 Lakhs compared to that of ₹ 399.46 lakhs during the previous financial year (an increase of ₹ 875.32 Lakhs) which is also due to the same reason as that of interest.

The company could achieve higher production and a higher sales value/turnover inspite of the fact that there is a steep decline in the prices of cement during the financial year compared to the previous financial years. As you may be aware, the drop in price realization is more significant in the state of Andhra Pradesh compared to the other markets in the country.

The cement industry, with its fluctuating fortunes, is known for abnormal variations in the prices owing to several reasons including the changes in demand for the product, supply side changes, increase in installed capacities, changes in the Government spending pattern, emphasis on infrastructure projects, political Situation etc. As the members are aware, during the year under review, there were several disturbances in the state of Andhra Pradesh which have had an adverse impact on the price realization as well as on cement off take.

The statistics available show that there is negative growth in AP for cement demand by about 12% during the year 2010-11 compared to the positive growth of 2.8 % in the year 2009-10 and positive growth of 19% during 2008-09. This negative growth has shown an adverse impact on the bottom line of the company, though there is a significant improvement in the sales turnover.

Expansion Project

A mention has been made about expansion project taken up by the company in previous annual report. The company could achieve higher production during the year 2010-11 partly owing to the additional capacity created by the expansion project, however, owing to the reasons explained above the production has not yet reached the full capacity utilization due to the adverse market conditions and it is estimated that the year 2011-12 will witness a significant increase in both the quantity terms and in value terms as well as the profitability.

Dividend

The Board of Directors of the company has recommended a dividend of ₹ 0.80 paisa per equity share of ₹ 10/- each for the year ended 31st March, 2011.

Fixed Deposits

The aggregate amount of deposits accepted by the Company stood at ₹ 250.51 Lakhs and matured and unclaimed deposits as on 31st March, 2011 were NIL.

Directors

In accordance with the provisions of the Companies Act, 1956 and in terms of Articles of Association of the Company Mr. RA Rama Raju and Mr. PV Subbarao retire by rotation at the ensuing Annual General Meeting and being eligible, offers themselves for re-appointment.

The detailed profile of the above directors are given under the head "Corporate Governance".

Management Discussion and Analysis Report

We submit here under the Management Discussion and Analysis Report on the Business of the Company as applicable to the extent relevant

Cement Industry Structure and Development

The cement industry in India has an installed capacity of 254 million tonnes p.a out of which 55 million tonnes comes from the state of Andhra Pradesh.

There has been a spurt in total cement installed capacity in India where as the demand for the product during the year under review has not increased keeping in pace with the increase in production capacities. In these times of highly competitive position in cement industry, an effective cost control and better logistics management will be playing key role to achieve a sustainable growth in the long run. Having contributed to the increase in the total cement capacity, your company would now focus more on cost control and increased/effective utilization of the material/resources which would automatically translate into better value for the stakeholders.

Opportunities and Challenges

Opportunities

The year 2011-12 is viewed as an year of opportunity. The company plans to lay increased emphasis on the marketing more particularly because the additional production from the expansion project has to be marketed to the full benefit of the shareholders. In this context the year 2011-12 is also considered as year of marketing. It is expected that inspite of the impact of continuously raising inflation and reduction in the growth of industrial production and not so bright general industrial scenario, the outlook for the cement remains positive in the long run. With the expected growth in spending on infrastructure, roads, port and power projects, housing and urban infrastructure and the irrigation projects, the growth in demand for the cement in the year 2011-12 is expected to be better and as a result the company should be able to achieve higher and better realization for the product. The company has also been able to expand its presence in the outside markets such as the states of Tamilnadu, Kerala, Orissa, Karnataka and Maharashtra and this larger geographical spread should help in strengthening the market for the product of the company and contribute to the higher turnover and profitability.

Challenges

Cement industry has faced a downtrend in the later part of 2009-10 and first half of the 2010-11 particularly in the state of AP. However, the management is confident that the worst phase for cement is over and there has been recovery in the demand and price realization from the third quarter of the financial year 2010-11.

The challenges for the year 2011-12 and the subsequent two years will be to enhance our share in the outside markets such as Kerala, Tamilnadu, Orissa, Maharashtra and Karnataka and the company is continuously scanning the market scenario and

enhancing the sales in the areas in which the company could get a better realization, however, without altogether ignoring any addressable markets. Necessary mechanism is put in place to ensure that this continuous market knowledge is obtained and used to boost the revenues and profits.

Segment Wise Performance

The company's main business activity is manufacturing of Cement which falls in a single segment.

Over view

The industry, in general, could not achieve its expected off take from its expanded capacities due to lack of Government spending on infrastructure caused by the global crises and unstable political situation. Similarly, private sector plans for buildings etc., also lagged behind considerably due to the uncertain situation with overseas clients caught in the throes of the economic meltdown.

Presently, there are signs of positive return to the growth phase in most of the sectors and also in infrastructure development which will spur Government spending. These signs coupled with a revival in building activity in the realty sector should give a boost to demand and prices in the cement industry.

Considering the multiple areas of concern for achieving sustained growth, the company is looking at opportunities on solutions for cost control, creation of adequate transportation facilities, creating distribution bases such as grinding and packing units nearer the consumer cluster, venturing into backward and forward integration etc.

Outlook

The industry is however highly positive on the long term outlook and is going in for creation of additional capacities, encashing on consolidation opportunities to synergize on operations and reduce production costs. The outlook is based on the imperative need for infrastructure creation in the country, more homes for the citizens, better and additional commercial and hospitality projects etc.

The recovery in Housing Sector shall also facilitate to improve the demand further. It is also pertinent to note here that the per capita consumption of cement in India falls a way below the world per capita consumption and a country which is on progressive & developing path has to come close to that of world per capita consumption and this factor alone shall give a great hope for cement industry in India.

In the final result, cement as a product has come to be seen as one of the ingredients for the improvement of the country's economy and standard of living and will take its place as an evergreen product.

Risks and Concerns

The production of cement is heavily dependent on availability of coal and power. Availability from the Coal Linkage System is slow and subject to many limitations and restrictions of allotment etc., Cement producers are therefore pushed to the need to be judicious in their approach for procurement of coal constantly watching the price levels and availability factor.

Power, the other major input, is also the subject of considerable uncertainty given that the major source is still the Transmission companies (Transcos) which are materially controlled by the State Governments.

Fluctuation in cement selling prices is yet another risk as the demand for the product has its heights and lows in any given period. With production concentrated in a cluster, distribution pose problems due to distances to be covered, logistical deficits, transport costs, timely delivery to the consumer etc. These are being met with adequate responses by the company as stated earlier in this discussion and are expected to smoothen the fluctuation curve to a manageable level. Notwithstanding the presently robust scenario, the mere cyclical nature of cement would still have its peaks and troughs in regular intervals.

Though the overall industry looks moderate, rising energy prices and high growth of inflation among others, may affect the cement industry.

The shortage of coal is a major bottleneck for the industry with a prospective effect on power generation, a major input for cement production. The other major concern is the rising freight cost, which is bound to further increase with the recent hikes of prices of petroleum products.

The demand supply mismatch for the cement in Andhra Pradesh and pressure on margins is a cause for concern.

Internal Control Systems & their Adequacy

The Company is having adequate Internal Control System and an external agency of Chartered Accountants have been appointed as the Internal Auditors and the Audit Committee reviews the Internal Auditors Reports. It suggests remedial actions wherever required.

The Company firmly believes that internal control is a process, designed to provide reasonable assurance regarding the effectiveness and efficiency of operations of a company, the reliability of its systems of financial reporting, compliance with applicable laws and regulations, effective implementation of transparency in significant transactions, agreements, contracts which may impact its financial performance, adequate reporting systems to apprise management by way of periodical MIS reports etc., The Board perceives that this process has been put in place and to ensure its effective administration and implementation, internal audits are periodically carried out by duly appointed Internal Auditors.

Discussion on Financial Performance with respect to Operational Performance

The financial performance with respect to the operations of the Company is discussed below:

The sales and other income were at ₹ 22893.70 Lakhs as against ₹ 15580.64 Lakhs in the previous year.

The profit before tax of the Company was ₹ 129.49 Lakhs as compared to ₹ 2079.31 Lakhs in the previous year. The net profit for the year was ₹ 57.61 Lakhs against ₹ 1168.93 Lakhs in the previous year.

The reasons for the drop in Profit before tax and Profit after tax compared to the previous financial year are the steep increase in the interest & depreciation charges totaling ₹ 3864.92 Lakhs during the year 2010-11 compared to that charges of ₹ 933.21 Lakhs during 2009-10 (as explained more clearly in Directors report under "Review of Operations").

Material Development in Human Resources / Industrial Relations

The Company believes that the quality of its employees is the key to its success in the long run and is committed to provide necessary human resource development and training opportunities to equip them with skill, enabling them to adapt to contemporary technological advancements. Industrial relations during the year continued to be cordial and the Company is committed to maintain good industrial relations through proactive measures. The employees have always been a pillar of strength to the company. Your Directors appreciate the significant contribution made by the employees to the operations of your company during the year.

Cautionary Statement

Statements in the "Management Discussion & Analysis" describing the Company's objectives, projections, outlook, expectations, estimates, etc., are perceived currently/ forward looking statements and progressive within the meaning of applicable laws and regulations. Actual results may differ materially from those expressed or implied, due to several important factors that could influence the company's operations. These include domestic supply and demand conditions affecting selling prices of finished goods, input prices, changes in government regulations and policies, legislation, tax laws, political and economic developments, natural calamities, etc., over which the Company does not have any direct control.

Auditors' Report on Consolidated Financial Statements

To,
The Board of Directors
Anjani Portland Cement Limited
Hyderabad

1. We have examined the attached Consolidated Balance Sheet of Anjani Portland Cement Limited, its subsidiaries Vennar Ceramics Limited and Hitech Print Systems Limited as at 31st March, 2011, the Consolidated Profit & Loss Account and the Consolidated Cash Flow statement for the year ended on that date. These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We did not audit the financial statements of the subsidiary "Vennar Ceramics Limited", whose financial statements reflect total asset of Rs. 1263.10 Lakhs as at 31st March, 2011 and total revenues of Rs.290.97 Lakhs. These financial statements have been audited by other auditors whose report has been furnished to us, and our opinion, in so far as it relates to the amounts included in respect of the subsidiary, is based solely on the report of the other auditors.
4. We report that the consolidated financial statements have been prepared by the Company in accordance with the requirements of Accounting standard (AS) 21, Consolidated Financial Statements, issued by the Institute of Chartered Accountants of India, and on the basis of the separate audited financial statements of the Anjani Portland Cement Limited and its subsidiaries included in the consolidated financial statements.

5. On the basis of the information and explanation given to us and on consideration of the separate audit report on individual audited financial statements of Anjani Portland Cement Limited and its subsidiaries Vennar Ceramics Limited and Hitech Print Systems Limited, we are of the opinion that the said consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India.
- a. In the case of the Consolidated Balance Sheet, of the State of Affairs of Anjani Portland Cement Limited and its subsidiaries as at 31st March, 2011;
- b. In the case of the Consolidated Profit & Loss Account, of the Consolidated results of operations of Anjani Portland Cement Limited and its subsidiaries for the year ended on that date; and
- c. In the case of the Consolidated Cash Flow Statement, of the consolidated Cash Flows of Anjani Portland Cement Limited and its subsidiaries for the year ended on that date.

The Financial Statements are prepared under the Historical cost convention on an accrual basis and are in accordance with the requirements of The Companies Act 1956 and comply with the Accounting Standards referred to in Sub Sec (3c) of Section 211 of the said Act.

2. Revenue Recognition

Income from sale of goods is recognized at the point of dispatch to customers except in the case of consignment agents where the revenue is recognized only after sale is affected by the consignment agent. Sale value includes Excise Duty, VAT and applicable freight.

3. Fixed Assets

Fixed assets are stated at cost of acquisition or construction. Cost comprises of the purchase price and other attributable expenses including cost of borrowings till the date of capitalization of the asset acquired / installed / commissioned. All the expenditure incurred on establishing / setting up of new projects / substantial expansion of existing facilities/creation of new assets is capitalized. Such expenditure to be capitalized includes borrowing / finance costs, direct and indirect expenditure incurred on such assets upto the time they are completed.

4. Depreciation

Depreciation on fixed assets has been provided on the straight line method and at the rates and in the manner specified in Schedule XIV to the Companies Act, 1956.

5. Investments

Long term investments are stated at cost. The diminution in the market value of such investments is not recognized unless it is considered permanent in nature. Current investments are valued at the cost or market value whichever is lower.

6. Borrowing Costs

Borrowing costs relating to acquisition of fixed assets which takes substantial period of time to get ready for its intended use are included to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are charged to revenue. Borrowing costs consist of interest and other costs that the company incurs in connection with borrowing of funds.

7. Accounting for Leases

Rentals in respect of leased premises are charged to profit and loss account.

8. Inventories

Items of inventories are measured at lower of cost or net realizable value after providing for obsolescence, if any. Cost comprises of cost of purchase, cost of conversion, and other costs incurred in bringing the inventories to the present location and condition.

9. Employee Benefits:

a. Defined Contribution Plan

A retirement benefit in the form of Provident Fund is defined contribution scheme and the contributions are charged to the Profit and Loss Account of the year when the contribution to the respective funds become due.

b. Defined Benefit Plan

Compensated absences

Long term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method as at the Balance Sheet date. Actuarial gains / losses are immediately recognized in the Profit & Loss Account.

Super Annuation

A retirement benefit in the form of Superannuation Fund is defined contribution scheme and the contribution is charged to the Profit and Loss Account of the year when the contribution to the respective funds are due. The Company has created an approved Superannuation Fund and accounts for the contribution made to LIC against an insurance policy taken with them. There are no other obligations other than the contribution payable to the funds.

Gratuity

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. The company has created an approved gratuity fund, which has taken a group gratuity cum insurance policy with Life Insurance Corporation of India (LIC), for future payment of gratuity to the employees. The Company accounts for gratuity liability of its employees on the basis of actuarial valuation carried out at the year end by LIC.

10. Taxes on Income

a. Current Tax

Provision for current tax is made for the amount of tax payable in respect of taxable income for the year computed under the provisions of the Income Tax Act, 1961.

b. Deferred Tax

Deferred tax is recognized on timing difference being the difference between taxable income and accounting income that originate in one period and are capable of being reversed in the subsequent period/s, subject to the consideration of prudence.

11. Foreign Currency Transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing at the time of the transaction. Monetary items denominated in foreign currencies at the year end are translated at the year-end rates, the resultant gain or loss will be recognized in the profit and loss account. Any gain or loss arising on account of exchange difference on settlement of transaction is recognized in the profit and loss account

12. Provisions, Contingent Liabilities and Contingent Asset

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are disclosed when the Company has possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation. Contingent Assets are neither recognized nor disclosed in the financial statements.

13. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets, liabilities, revenues and expenses. The estimates used in preparation and present of financial statements are prudent and reasonable. Actual results could differ from estimates. Any revision of accounting estimates is recognized prospectively in the current and future periods.

14. Impairment

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An impairment loss will be recognized if the carrying amount of an asset exceeds its estimated recoverable amount. The recoverable amount is greater of asset's net selling price and value in use. In assessing the value in use, the estimated future economic benefits are discounted to the present value at the weighted average cost of capital.

B. Notes on Accounts

1. Principles of Consolidation

- a. The Consolidated Financial Statements (CFS) are prepared on the following basis in accordance with Accounting Standard on "Consolidated Financial Statements" and (AS – 21), notified under the Companies (Accounting Standard) Rules, 2006:
 - i. The financial statements of the Company and its subsidiary companies are combined on a line by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating material intra-group balances and intra-group transactions resulting in unrealized profits or losses in accordance with AS-21.
 - ii. The difference between the costs of investment in the subsidiaries, over the net assets as at the end of the financial year immediately preceding the year of acquisition of shares in the subsidiaries is recognized in the financial statements as Goodwill or Capital Reserve as the case may be.
 - iii. As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Appropriate adjustments are made to the financial statements of subsidiaries, except in the case of accounting for leave encashment of Hitech print systems where it is accounted when the obligation to pay rises, when they are used in preparing the consolidated financial statements that are presented in the same manner as the Company's separate financial statements.
